

ACM Digital Library (Publications)

Publisher: ACM Digital Library
 Data Coverage: 10 titles
 Subject: Art and Humanities

Terms & Conditions:
 Subscription period is Calendar Year (01 Jan 2022 - 31 Dec 2022)

No.	Judul	e-ISSN	p-ISSN	Penerbit	Publikasi	Anotasi	Indexed/Abstracted in	Link
1	ALGOL Bulletin 	-	0084-6198	International Federation for Information Processing (IFIP)	-	The Computer History Museum is the world's largest and most significant history museum for preserving and presenting the computing revolution and its impact on the human experience. It allows you to discover how computing became the amplifier for our minds and changed the way we work, live and play. We hope your visit will be educational and entertaining and that the legacy of these innovations live on to inspire others.	-	http://dl.acm.org/citation.cfm?id=J33
2	Computational Linguistics 	1530-9312	0891-2017	MIT Press for the Association for Computational Linguistics (ACL)	Quarterly	Computational Linguistics is the only publication devoted exclusively to the design and analysis of natural language processing systems. From this unique quarterly, university and industry linguists, computational linguists, artificial intelligence (AI) investigators, cognitive scientists, speech specialists, and philosophers get information about computational aspects of research on language, linguistics, and the psychology of language processing and performance. Computational Linguistics is published by MIT Press and is also available on the MIT Press journals site.	-	http://dl.acm.org/citation.cfm?id=J25
3	Evolutionary Computation 	1530-9304	1063-6560	MIT Press (United States)	Quarterly	<i>Evolutionary Computation</i> provides an international forum for facilitating and enhancing the exchange of information among researchers involved in both the theoretical and practical aspects of computational systems of an evolutionary nature. The journal publishes both theoretical and practical developments of computational systems drawing their inspiration from nature, with particular emphasis on evolutionary algorithms (EAs), including, but not limited to, genetic algorithms (GAs), evolution strategies (ESs), evolutionary programming (EP), genetic programming (GP), classifier systems (CSs), and other natural computation techniques.	-	http://dl.acm.org/citation.cfm?id=J277

4	Journal of Computing Sciences in Colleges 	1937-4763	1937-4771	the Consortium for Computing Sciences in Colleges (CCSC)	Bimonthly	<p>The Journal of Computing Sciences in Colleges is distributed to faculty in over 200 colleges.</p> <p>The Journal of Computing Sciences in Colleges is a bimonthly peer-reviewed, open access academic journal published by the Consortium for Computing Sciences in Colleges covering topics associated with computer science and education, and current technologies and methods in these areas.</p>	-	http://dl.acm.org/citation.cfm?id=J420
5	Journal of Usability Studies 	-	1931-3357	Usability Professionals Association	Quarterly	<p>The Journal of Usability Studies (JUS) is a peer-reviewed, international, online publication dedicated to promoting and enhancing the practice, research, and education of user experience design and evaluation. The journal aims to provide usability practitioners and researchers with a forum to share: Empirical findings and case studies Emerging methods and tools from within the user experience profession and from related disciplines, such as market research and technical communications Reports of good practices in user experience Approaches and case studies in usability education and training</p>	-	http://dl.acm.org/citation.cfm?id=J1340
6	Linux Journal 	-	1075-3583	Specialized System Consultants, Inc.	Monthly	<p>Linux Journal is a monthly technology magazine originally published by Specialized System Consultants, Inc. from Seattle since 1994. In December 2006 the publisher changed to Belltown Media, Inc. in Houston, Texas. Since 2017, the publisher was Linux Journal, LLC. located in Denver, Colorado.</p> <p>Linux Journal chronicles the latest applications and news from the Linux community.</p>	-	http://dl.acm.org/citation.cfm?id=J508

7	Personal and Ubiquitous Computing 	1617-4917	1617-4909	Springer Science+Business Media	Bimonthly	<p>Personal and Ubiquitous Computing has published some of the most innovative international research contributions on the design and evaluation of new generations of handheld and mobile information appliances.</p> <p>Since 1997 it has provided a global perspective on new developments, uniting technical accounts with studies of the social, cultural and organisational impacts of new personal technologies.</p> <p>The journal has published papers from research groups worldwide and has published special issues taken from leading international meetings.</p>		http://dl.acm.org/citation.cfm?id=J822
8	Proceedings of the VLDB Endowment 	-	2150-8097	VLDB Endowment	-	<p>The Proceedings of the VLDB Endowment (PVLDB) provides a high-quality journal publication service to the data management research community. Each volume offers twelve monthly submission deadlines on the first day of each month and a quick, six week reviewing cycle.</p> <p>The Proceedings of the VLDB (PVLDB) welcomes original research papers on a broad range of research topics related to all aspects of data management, where systems issues play a significant role, such as data management system technology and information management infrastructures, including their very large scale of experimentation, novel architectures, and demanding applications as well as their underpinning theory. The scope of a submission for PVLDB is also described by the subject areas given below. Moreover, the scope of PVLDB is restricted to scientific areas that are covered by the combined expertise on the submission's topic of the journal's editorial board.</p>	-	http://dl.acm.org/citation.cfm?id=J1174
9	The Journal of Machine Learning Research 	1533-7928	1532-4435	MIT Press, Microtome Publishing, JMLR, Inc.	Annually	<p>Journal of Machine Learning Research publishes scholarly documents describing novel major contributions in the areas of Machine Learning & Artificial intelligence. Journal of Machine Learning Research publishes novel scholarly articles which go through peer review by experts in the given subject area. The journal encourages submissions from the research community where emphasis will be placed on the innovativeness and the practical importance of the reported findings.</p>	Scopus, Web of Science and Guide2Research	http://dl.acm.org/citation.cfm?id=J832

10	The VLDB Journal — The International Journal on Very Large Data Bases 	-	1066-8888	VLDB Endowment	Quarterly	<p>The VLDB Journal is a quarterly journal published by the VLDB Endowment. The journal is dedicated to the publication of scholarly contributions to the advancement of information system architectures, the impact of technological advancements on information systems, and the development of novel database applications. The journal was launched in July 1992. It is now published both in electronic and printed form by Springer-Verlag, beginning with Volume 5 (1996).</p> <p>In addition to its goal as an outlet for high quality and timely research and development results, the journal has two important commitments:</p> <ul style="list-style-type: none"> to low cost so that it is widely affordable to a quick publication of accepted papers, so as to publish the most recent and timely results. <p>High quality and timely publication is achieved by employing a large editorial board of internationally known researchers and a thorough review procedure. Each editor handles a relatively small number of papers at any one time, and can pay more attention to quality and timeliness of reviews. Papers are available electronically to subscribers as soon as they are accepted, regardless of the schedule of the paper version.</p>	-	http://dl.acm.org/citation.cfm?id=J869
